Claims for Different Invention Added After an Office Action

Claims 31-64 which submitted on 11/13/2008 and 05/04/09 are directed to an invention that is independent or distinct from the invention originally claimed and/or elected invention.

It is noted that applicant originally has received an action on the merits for a composition comprising "a nicotine, nicotinic acid analogs or polymeric forms thereof" which was originally presented (original claims 6-7 and 31-30) and subsequently elected by the applicant in response to the restriction requirement mailed 10/16/2006.

As clearly seen in the claims prior to the examiner's restriction requirement (see claims filed 12/07/2004), the claims recites alternative language "or". Accordingly, the elected invention was construed to mean a composition comprising one of component selected from nicotine, nicotinic acid analogs or polymeric forms. However, the amendment filed on 11/13/2008 and 05/04/09 cancelling claims 1-30 and presenting claims (which is drawn to a composition comprising nicotine or a polymeric form thereof in combination with nicotinic acid analogs) that are different from the invention originally claimed and/or elected invention is considered non-responsive (MPEP § 821.03).

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
